

Table 1.: Basic data and archaeological context of the sampled beads

Sample ID	Grave no.	Age at death, sex*	Bead type/s	Weight of silver items (g)**	Notes
	2/2001.	child, under 6 y.o.	glass	-	
	74/2002.	child, Inf. I/II	glass and fluorite	2.25	
	82/2002.	child, Inf. II.	glass	2.39	
	23/2003.	adult male and child	glass	-	the bead was not found in the original context
MI7, MI8	40/2003.	adult, undetermined	glass and fluorite	8.46	disturbed grave
	20/2004.	child, Inf. I/II	glass and fluorite	-	
	29/2004.	no data	glass, fluorite and silver foiled glass	6.92	
	44/2004.	child, Inf. II. or juvenis	silver foiled glass	0.99	
	51/2004.	child (?)	glass	< 0.1	not determined by anthropologist
	68/2004.	child, Inf. I.	silver foiled glass	0.2	
MI16	92/2004.	male, matus	glass	-	the bead was found in the sabretache, i.e., in a secondary position
MI17	115/2004.	female, juvenis or adult (+female)	glass, fluorite and gold foiled glass	12.05	disturbed grave?
	7/2005.	child, Inf. II.	glass	2.86	
MI20, MI21, MI23, MI24, MI29, MI30	31/2005.	undetermined juvenis or adult	glass and silver foiled glass	5.34	
	72/2005.	child, juvenis	silver foiled glass	-	
	86/2005.	female, juvenis	fluorite and silver foiled glass	6.57
