

# **FOUNDING DECLARATION OF THE INTERNATIONAL STUDENTS OF HISTORY ASSOCIATION**

We the participants of the founding conference of the International Students of History Association declare the establishment of a world-wide network for students and recent graduates interested in history and related sciences.

For the first time since the fall of the "iron curtain" history students from all over the world, as far apart as Jerusalem and Helsinki, Moscow and Los Angeles, have been able to meet one other and discuss their common heritage.

With our commitment to international understanding and cooperation we shall pursue projects designed to further the flow of information in the following ways:

- a) The establishment of an international historical quarterly.
- b) The exchange of archive materials that have recently come to light.
- c) The furthering of links between all the universities and institutions of higher education.

We hope that all people will support our world-wide organization that will meet again in May 1991 to carry on working towards increased international co-operation and understanding.
