

## Content - ECB 2012, 1(5)

1. Geochemical properties and its environmental impacts of the Mazino coal deposit, Central Iran <i>Mohammad Yazdi and Hadi Golzar</i>	125
2. The versatility of heteroaggregation in microgel systems <i>Azwan Mat Lazim</i>	130
3. Kinetics and mechanism of the oxidation of substituted benzaldehydes with bis(pyridine)silver permanganate <i>Jayshree Banerji, László Kótai, Pradeep K. Sharma, and K.K. Banerji</i>	135
4. Properties of Water/Sodium Dodecyl Sulfate/n-Propanol/Allylbenzene Micellar Systems <i>Monzer Fanun, Ahmad Shakarnah, Oday Mustafa, Michael Schwarze, Reinhard Schomäcker, Jochanan Blum</i>	141
5. Studies on the utilization of solar energy in the effluent treatment <i>K. K. Sivakumar and M.S. Dheenadayalan</i>	146
6. Corrosion inhibition by trisodium citrate (TSC)-Zn <sup>2+</sup> system <i>B. Shyamala Devi and S. Rajendran</i>	150
7. Synthesis of sec-butanol from n-butenes and water with molecular sieve catalysts <i>Zhang Yongmei and You Hongjun</i>	158
8. Utilization of environmental waste materials (coal fly ash and <i>prosopis juliflora</i> carbon) in the removal of chromium, lead, zinc and copper from industrial effluents <i>K. K. Sivakumar and M. S. Dheenadayalan</i>	161
9. Economic benefits of C <sub>2</sub> utilization in China <i>Lu Hongjie and Linda Zhang</i>	168
10. An overview of shale oil utilization <i>Zhang Yongmei and You Hongqing</i>	170
