

BGS (Balkan Geophysical Society)

hírek – meghívók

Dear all,

As far as I am aware, this year marks the 30th anniversary of the Balkan Geophysical Society – a milestone truly worth recognizing.

I believe it would be meaningful for us to reflect on this important moment in the Society history, and perhaps consider organizing an event or initiative to commemorate it. One possibility could be convening a meeting of the Board Members this autumn – perhaps in Greece, as a central and symbolic location?

Alternatively, I would be glad to host a BGS Board meeting or organize a commemorative moment within the framework of GeoScience Romania (30–32 October), the Annual Meeting of the Society of Applied Geophysics in Romania, where we could also honor the occasion among regional colleagues and partners.

Looking forward to hearing your thoughts and ideas.

Best regards,
Florina

Florina Tuluca
President of the Romanian Society of Applied Geophysics
Vice-Chair of the Environmental, Mining & Infrastructure Circle of EAGE.
Board Member of the Balkan Geophysical Society
Lecturer at the University of Bucharest

Dear Colleagues from the Balkan Geophysical Society,

I have the pleasure to invite you to participate in the XII National Geophysical Conference with international participation, which will take place in Sofia from 29th to 30th September.

More detailed information you can find on the site of the Bulgarian Geophysical Society:
<https://bggs.eu/events-en.html>

If you wish to participate with a report, you will be able to submit an abstract via the online form:
https://bggs.eu/register_%D0%B5n12conf.php.

If you would like to participate as a listener and in the discussions, we look forward to seeing you in Sofia at the end of September.

Please share this information with your Societies and with colleagues who might be interested in the event.

Sincerely,
Christian

Christian Tzankov, PhD
Assistant Professor
Department of Applied Geophysics
University of Mining and Geology “St. Ivan Rilski” – Sofia, Bulgaria
